

making the most of the best

here's (approximately) what you need: a cutter, glue, and, of course, pages 2 & 3 from this PDF. Most of the job is fairly self-explanatory; should you have questions, feel free to contact us: info@tonatom.net. ;-)

You may have noticed that the CD sleeve pictured here differs from the one you'll find in this file. Don't worry. The procedure is virtually the same.
