All music was made on a combination of machines -  
 a boss dr 202, boss sp 505, a photon x25 controlling  
 minimoog v, and ableton live to capture it all.

There are very subtle, disassembled vocal samples taken  
 by me of singer and acquaintance Brandon Aase, as  
 well as the software program vocaloid 2.

I'd like to thank Oleg for his musical recommenda-  
 tions, Chicago's Moment Sound crew, and Vivien  
 for her support.

All music composed and recorded by dreamlogic  
 (aka James Beckman) 2007-2008.
